

## CurriculumTrak Viewing Instructions

Almost all courses taught at Timothy Christian Schools are displayed in charts called curriculum maps. These grids show the content, essential questions, faith integration, and unit questions for each class. The information is listed chronologically by unit. In addition, more detailed information is available for each topic in Unit Maps.

Timothy publishes links to both the Curriculum and Unit Maps on its website. Look under Academics, School Level (K-6, 7-8, or 9-12), and Curriculum for the link to either type of map.

### Curriculum Maps

Begin by logging on to the maps through the Timothy website or use this link:

[http://www.timothychristian.com/9-12\\_curriculum.php](http://www.timothychristian.com/9-12_curriculum.php). The opening page is quite blank.

Program:

You will find the word Program next to a box with a down arrow. Click on the down arrow to see a drop down menu of the main subjects taught at Timothy (English, Mathematics, Physical Education, Science, Social Studies, Bible, etc.). Click on the subject you wish to see.

Program:

Course:

Another box will appear. Click on the down arrow to see a new drop down menu of the K-12 courses. Choose one to display the curriculum map.

### Unit Plans

Begin by logging on to the maps through the Timothy website or use this link:

[http://curriculum.faihtwebsites.com/client/unit\\_plan/public/view.cfm?memberid=1073](http://curriculum.faihtwebsites.com/client/unit_plan/public/view.cfm?memberid=1073). The opening page will be the same except the title at the upper left of the page will say Unit Plans instead of Curriculum Maps. As in the curriculum maps, select the program and the course in the drop down menus. The units are listed according to the time frame, usually chronologically. In addition to the information given on the curriculum map, materials and technology are also included.
