

September 17, 2007

Dear Parents,

I trust that by now you have seen and been impressed by one of the most recent blessings to come Timothy's way: SMART Boards.

Kevin Hackert, our Information Technology Director, always enthused about any new technology with promise, is even more ecstatic about this particular innovation.

"I am very excited about the potential of these SMART Boards. It allows the teacher to be much more creative in everything they do and it allows the students to take a more active role in their education. It makes me want to get back into the classroom."

Dr. Tim Hoeksema, our principal, is equally excited.

"In my 30 + years in Christian education, I have never seen an innovation that so compellingly captured the imagination of teachers, students, and parents, or that has made such a significant and positive impact on teaching and learning."

Our goal is to purchase more SMART Boards for every classroom, as soon as possible. Through **three generous donations**—one from a family foundation, another from a parent couple, and a third, sizeable gift from Partners in Education—we were blessed with the ones you have seen.

Perhaps you too would like to help make our dream a reality with a gift large or small. If that's the case, please contact me and we can discuss it. In the hands of our gifted and creative teachers, this is one more tool towards developing academically prepared disciples of Jesus Christ.

In partnership with you and the Kingdom,

Dave Larsen
Director of Advancement
